

Finance and Business Strategy

Decision Inc. 2012 - present

I am responsible for actively engaging with clients on projects regarding sales targets, project timelines, action plans and potential leads. I take full accountability for project delivery, project quality, resource planning and scorecard alignment. Should we put examples? – mCard for Makro, Analytics Data warehouse and BI solution,

In my previous role as Financial Manager at Decision Inc., I was responsible for heading up the finance functions related to client projects. I was also responsible for monthly reporting, review of the reconciliations, financial statements and monthly statutory reporting, tax, budgeting, cash flow management and other financial requirements within the company.

I managed the performance of the team by driving and managing project profitability and resource optimization.

Kate McFarlane Client Partner

I am an experienced Chartered Accountant with 3 years' auditing experience and 6 years' experience in the information technology and services industry, particularly within Business Intelligence (BI). I am a strong finance professional with a Bachelor of Business Science with honours in Finance and accounting from University of Cape Town.

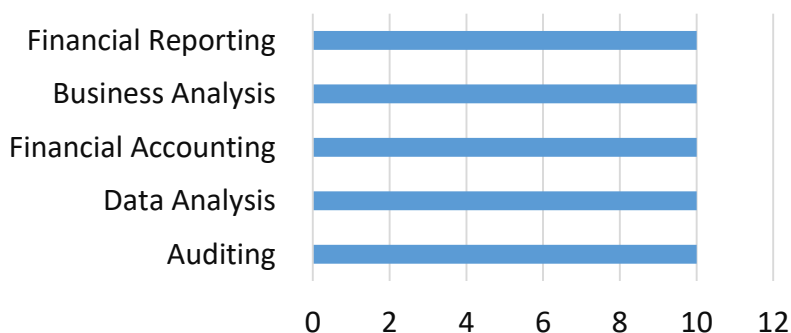

While completing my articles at Deloitte, I passed both of my board exams first time and qualified as a chartered accountant.
