THE NEEDS OF A DATA CENTRIC BUSINESSES

Scalability and performance no matter the volumes

Single platform for all data

Governed and controlled access

THE CURRENT SYSTEM LANDSCAPE AND REALITY

Many companies are stuck with complicated Enterprise Environments with multiple systems, databases and capabilities make enterprise analytics difficult. Snowflake centralizes everything into one platform making it easier to get an overview of all data and allowing companies to make better decisions.

NEEDS FOR A DATA PLATFORM

- 1 Secure and Governed Access to All Data
- 2 One Platform One Copy of Data, Many Workloads
- 3 Near-Zero Maintenance, as a Service
- 4 Unlimited Performance and Scale

SNOWFLAKE'S DATA CLOUD PLATFORM

SNOWFLAKE PLATFORM BENEFITS

SCALABILITY

Distributed and scaled workloads, with compute and storage being able to be scaled independently.

SIMPLIFIED ARCHITECTURE

Simplified administration and governance.

TIME TO IMPACT

Time to insights, action and impact are reduced.

COST IMPACT

Savings on Total cost of ownership are expected in almost all pre-assessments.

Snowflake combines the power of data warehousing, the flexibility of big data platforms, and cloud elasticity at a fraction of the cost of traditional solutions.
