

GET AI-READY WITH DATABRICKS

Build a Production-Ready AI Data Platform in 4 Weeks

 DECISION INC. databricks

Unify your Data Estate

Enable AI

Accelerate Insights

AI is no longer a future strategy; it is a competitive requirement. Leading organizations are widening the performance gap by reinvesting AI-driven gains, unlocking new revenue streams, accelerating operations, and reducing costs through automation and intelligent decision-making.

THE FASTEST PATH TO AN AI-READY DATA PLATFORM

Databricks is the trusted leader in Data and AI, unifying data engineering, analytics, governance, and AI in a single platform. By empowering every team member, from business users to data scientists, to build, deploy, and scale AI responsibly. Databricks positions organisations to become leaders in their markets in a race they can no longer afford to ignore.

Fragmented data slows AI adoption, creates inconsistencies, and delays insights. Databricks solves this with a single, trusted data foundation and a suite of AI tools, letting your teams focus on generating business value, not managing infrastructure.

"Organisations leading in AI have experienced 1.5 times faster revenue growth compared to their peers."

- OpenAI, Staying Ahead in the Age of AI, 2025

Clients investing in Databricks for AI have seen 417% ROI in 3 years; payback in under 6 months

Forrester's Total Economic Impact™ (TEI) study on Databricks

Databricks is a leader in Data Science & ML Platforms (2024–2025)

Gartner Magic Quadrant

TRADITIONAL DATA PLATFORM

- Built for structured data and historical reporting
- Batch processing, dashboards, KPIs
- Reliable, but limited for AI/ML use cases

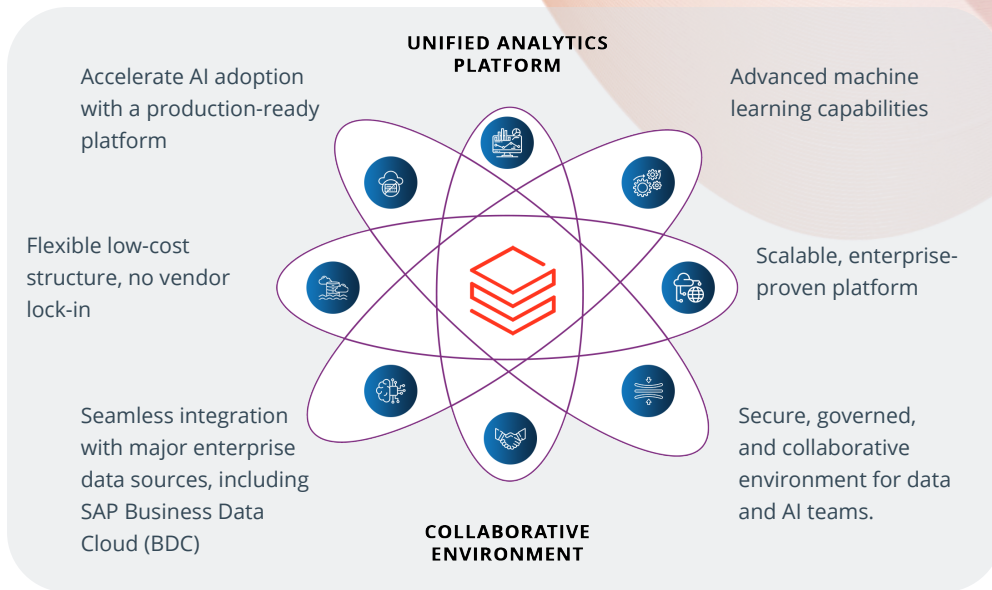

AI-READY DATA PLATFORM

- Unifies structured, semi-structured, and unstructured data
- Scales for real-time analytics, ML, and GenAI
- Enables predictive, adaptive, and AI-driven decision-making

Don't let traditional data platforms limit your AI potential.

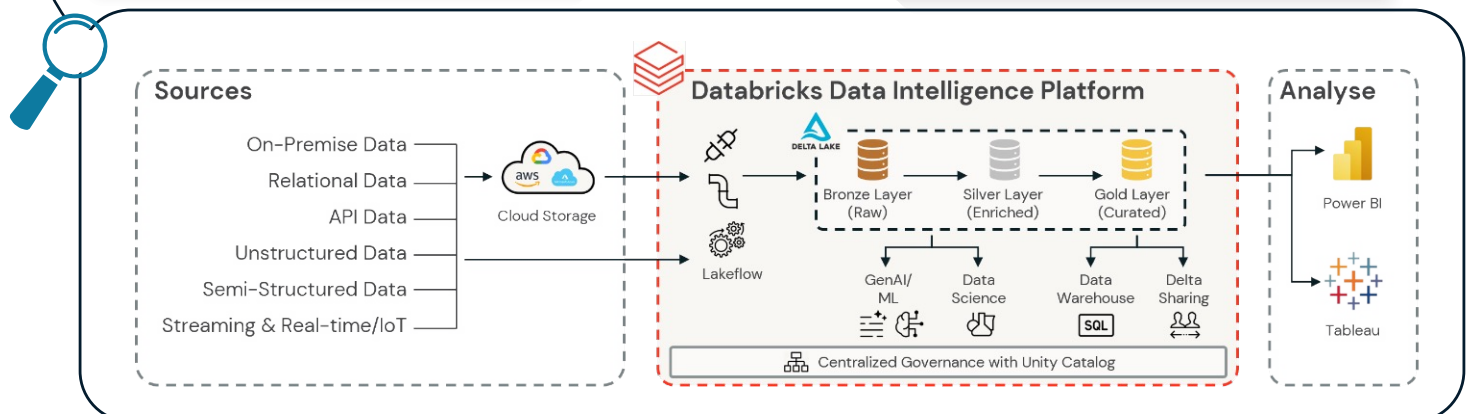

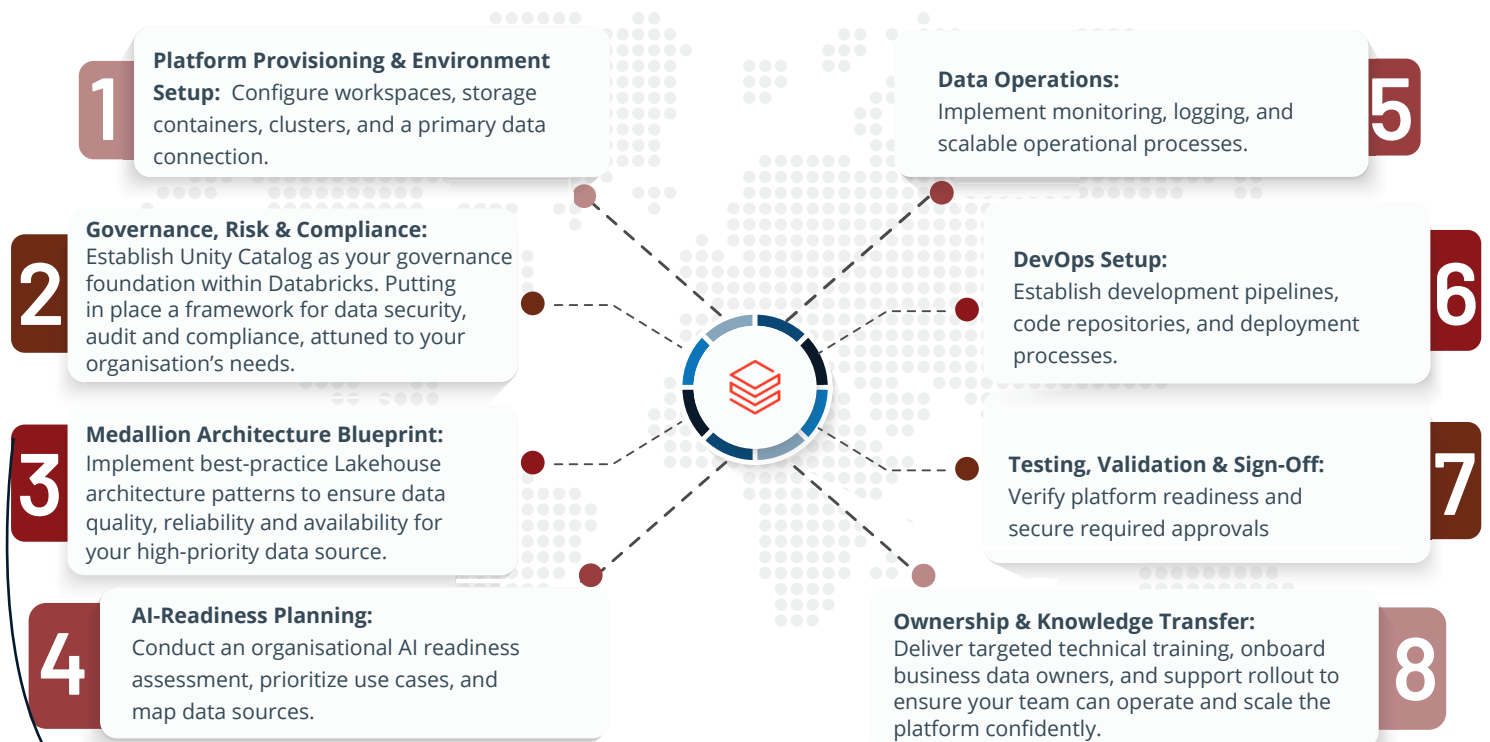

KEY BENEFITS OF DATABRICKS

Partnering with your teams, Decision Inc. will help you become AI-ready with Databricks in as little as 4-weeks. Our team of Databricks-certified technical experts will configure your environment according to best practices while partnering with your internal teams to identify and realise high-priority AI opportunities for your business.

OUR 8-STEP FRAMEWORK FOR A PRODUCTION-READY PLATFORM

WHO WILL BENEFIT FROM THE ACCELERATOR?

Unlock AI-driven business value quickly

Reduce time-to-insight and speed up decision-making

Modernise data architecture for GenAI and ML

Consolidate siloed data into a single source of truth

Strengthen governance, security, and operational efficiency

BY THE END OF WEEK FOUR

YOU WILL HAVE:

- A fully configured Databricks environment with governance, roles, and pipelines in place
- Your first key business data source integrated and operational
- Your team trained to manage and scale the platform with confidence

THIS WILL POSITION YOUR ORGANISATION TO:

- Accelerate AI adoption across the business
- Reduce trial and error in AI initiatives
- Make faster, smarter business decisions
- Strengthen data governance and long-term strategy

WHY WORK WITH DECISION INC.?

Decision Inc. is a global digital consulting firm helping businesses adapt, grow, and succeed in a rapidly evolving world. For over 15 years, we've partnered with more than 400 clients to modernise their operations and better leverage technology.

Our team combines deep industry knowledge with technical expertise to deliver practical, scalable solutions — whether through strategy, systems design, or data-driven insights. With offices across four regions, our consultants work in cross-functional teams spanning consulting, development, and engineering, all focused on delivering real value and keeping clients at the centre of what we do.
